SureLock Waist Belt

(Model: SLMP)

Overview

The **SureLock M&P Waist Belt** comes standard in the SureLock Full Restraint System (SLMP1). The cut-resistant belt is secured in the back using a proprietary lockable Main Buckle. Two hand restraint tethers embedded with two stainless steel cords and a proprietary UniLock mechanism allow for one-way restricted movement. All locks are released with a standard handcuff key. The Waist Belt enables an escorting Officer to control a Subject's movement while allowing the Subject enough movement to be fingerprinted, use the bathroom facilities, eat, and/or perform other required movements for transport and/or processing.

Specifications

- Adjustable to fit 29-57" waist
- Strong, one-inch, 5700-lb test, Nylon hand restraint tethers with two embedded stainless steel cords
- Ballistic Cordura® outer-belt fabric with a non-slip inner-belt fabric
- Proprietary lockable Main Buckle attached to a two-inch Nylon strap embedded with two stainless steel cords
- Two proprietary hand restraint UniLocks: allows a Subject's handcuffed arm to be extended using a standard handcuff key and retracted manually at any time by pulling the red tether
- Peerless® M700C carbon steel, nickel-plated handcuffs (NIJ approved), with two standard keys
- Carrying Bag and User Manual included

★ MADE IN THE USA ★

--

- Adjustable to fit 29-57" waist
- Strong, one-inch, 5700-lb test, Nylon hand restraint tethers with two embedded stainless steel cords
 - Ballistic Cordura® outer-belt fabric with a non-slip inner-belt fabric
- Proprietary lockable Main Buckle attached to a two-inch Nylon strap embedded with two stainless steel cords
- Two proprietary hand restraint UniLocks: allows an individual's soft-cuffed arm to be extended using a standard handcuff key and retracted manually at any time by pulling the blue handle
- SureLock Soft-Cuffs with a double-locking UniLock device - Neoprene material for washability and softness to prevent soft tissue damage.
- All UniLock use a standard handcuff key release. Two standard keys provided.

Standard Leg Restraint

(Model : LR1)

PRICE LIST *

\$ 185 (1-29 units)

\$ 175 (30 units or more)

5-year lease available

Overview

The **Standard Leg Restraint** is included in the SureLock Full Restraint System (SLMP1). The restraint enables an escorting Officer total control over a Subject's mobility without limiting a normal stride, yet can be quickly retracted by pulling the red handle to safely control movement. The restraint can be adjusted to allow a Subject to sit while limiting the ability to get up. A Subject can also be restrained to the point of immobility. The unit is designed for single-leg use, but can be adjusted to fit both ankles. Two embedded stainless steel cords makes this leg restraint cut resistant.

Specifications

- Strong, one-inch, 5700-lb test, Nylon tether embedded with two stainless steel cords
- Attaches to the SureLock Waist Belt or a secure object via a Peerless M700C handcuff
- Proprietary upper leg UniLock device allows one-way restricted movement- released with standard handcuff key (one key included)
- Proprietary double-locking lower UniLock device is padded to reduce risk of tissue damage

Leg Iron Restraint

(Model: LR2)

PRICE LIST *

\$ 200 (1-29 units)

\$ 190 (30 units or more)

Overview

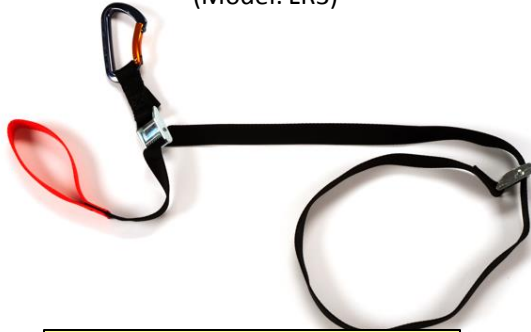

The **Leg Iron Restraint** combines a Peerless M703 Leg Iron with SureLock's Patent-pending leg restraining device (UniLock). The unit enables a Subject to walk with a limited stride, yet can be quickly retracted to safely control mobility. The unit is designed for those who prefer standard leg irons.

Specifications

- Strong, one-inch, 5700-lb test, Nylon tether embedded with two stainless steel cords
- Attaches to the SureLock Waist Belt or a secure object via a Peerless M700 handcuff (1 keys included)
- Proprietary upper leg UniLock allows one-way restricted movement - released with standard handcuff key
- Lockable Peerless M703 carbon steel, nickel-plated leg irons with 15" chain to limit range of mobility

Quick Deployment Leg Restraint

(Model: LR3)

PRICE LIST *

\$ 35 (1-29 units)

\$ 30 (30 units or more)

Subtract \$5 without carabiner

Overview

The **Quick Deployment Restraint** is designed for quick, temporary restraint of dangerous or uncooperative subjects. The unit is lightweight and easy to carry and store, offering enhanced protection for Officers. An attached carabiner allows the unit to be fastened to a secure object or a SureLock Waist Belt. The unit uses a non-locking ankle clamp.

Specifications

- Lightweight, one-inch, 3600-lb test, Nylon tether
- Attaches to the SureLock Waist Belt or a secure object via a 5500-lb test carabiner
- Two non-locking 500-lb cam buckles; ankle cam buckle and length-adjustment cam buckle

Replacement Tether

(Model: RP1)

PRICE LIST *

\$ 115 (each)

\$ 200 (pair)

Overview

All **SureLock** hand tethers can be replaced due to wear, damage, or malfunction. The units can be unscrewed from a SureLock Waist Belt and returned for maintenance or replacement. The Replacement Tether includes a cut-resistant Nylon strap, red tether, proprietary UniLock device, mounting plate, four stainless steel screws, Neoprene pad, and one Peerless® M700C handcuff (1 key). Installed locally.

Specifications

- Strong, one-inch, 5700-lb test, Nylon tether embedded with two stainless steel cords
- The tether has a proprietary UniLock device that allows a Subject's handcuffed arm to be extended using a standard handcuff key and retracted manually at any time by pulling the red tether
- Peerless® M700C carbon steel, nickel-plated handcuff (NIJ approved), with one standard key
- Attaches to a SureLock Waist Belt via a stainless steel plate secured by four stainless steel screws and covered with a Neoprene pad.

LTL Vantage, Inc. is a diversified company that offers less-than-lethal products to military and law enforcement agencies throughout the world. LTL Vantage is the exclusive producer of **SureLock™** cut-resistant restraints, a patent-pending device for maintaining flexible and total control in restraining prisoners, detainees, or medical patients. Two embedded stainless steel cords are weaved into the waist belt, hand tethers and leg restraint making the restraint completely cut-resistant.

Escorting personnel can now quickly and effectively restrict the movement of potentially dangerous, combative, and high-risk Subjects, while allowing them the necessary movements to complete any required task without removing the restraint. By simply pulling the tether handles, the escorting personnel can retract a Subject's movement to any degree up to the point of immobilization without compromising a Subject's health and safety -- ensuring safe transportation and processing for all.

SureLock was designed to exceed the extraordinary demands of controlling violent, drug-intoxicated, or mentally ill Subjects. It provides flexibility in performing common prisoner tasks, such as processing, court appearance, eating, bathroom functions, medical procedures, and transport. Safety for the Officer and Subject is greatly enhanced while liability risk is reduced. Whether you are in the military, law enforcement, medical services, or private security, **SureLock** is the clear choice for universal restraint.

EXPORT REGULATIONS AND RESTRICTIONS

The U.S. Department of Commerce and the U.S. Department of State Office of Munitions Control regulate our products. ***Export of restraining equipment from the United States without a valid export permit issued by the U.S. Department of State, Office of Defense Trade Controls is strictly prohibited.***

The SureLock family of restraining devices requires an export license issued by the U.S. Government. This process takes LTL Vantage four to six weeks to obtain approval from various agencies. **The information required for the export license and shipping includes:**

- Name of the company/agency
- Contact person and phone number
- Shipping address
- The intended end use of the product
- The anticipated quantity you expect to purchase within two years

Each export license is approved for a two or four year period. If any of the above information changes or the requested quantity is exceeded during that two or four year period, a new export license is required.

* Prices are in U.S. dollars and do not include shipping, export duties, U.S. sales tax, bank/wiring fees, foreign taxes and/or custom fees. 7
